FOR IMMEDIATE RELEASE

Bruce Coons and Timothy Beblo join Delta Computer Systems, Inc. as Eastern Regional Sales Managers

August 26, 2005 Vancouver WA. Bruce Coons and Timothy Beblo have been appointed Regional Sales Managers at motion controller innovator and manufacturer Delta Computer Systems, Inc.

"Tim Beblo will be responsible for Delta's motion control technical sales and distribution management efforts in the Mid Atlantic and Southeastern states while Bruce Coons will be responsible for similar efforts in the Northeast including Eastern Canadian provinces" stated Steve Nylund CEO of Delta Computer Systems, Inc.

Nylund added, "Continued and growing product acceptance of our innovative RMC family of motion controllers is causing Delta to reinforce our commitment to customer service excellence in the Eastern USA and Canada."

Bruce Coons brings more than 16 years experience in servo and proportional hydraulic flow control valves and motion control industrial applications to this responsibility. He draws upon three decades of NE regional sales, with key application exposure to material test, flight simulation, metals processing, wood products, plastics and machine tools to support Delta's customers and Distribution channel.

Tim Beblo has led and managed technical sales development activities across many Fortune 500 industry sectors, distribution channels, and service providers. His experience at HP (Agilent Technologies), National Semiconductor, GE Industrial Systems, plus a systems integration background adds broad technology sales and application experience to Delta motion control customers.

Both men have solid academic credentials. Tim holds a BS in Electrical Engineering and a Masters Degree in Administration while Bruce has a BS in Ceramics Engineering from Alfred University.

About Delta Computer Systems

Delta Computer Systems, Inc. designs, manufactures, markets, and supports motion controllers, color sensors, and specialized products. With more than a 20 year track record of motion control product development, customer responsiveness, continuous incremental improvement, and support for both legacy and new products, you can rely on Delta for lasting value. [Delta's motion controllers will be demonstrated next during Fabtech 2005-Chicago](#).
