

FOR IMMEDIATE RELEASE

## Randy Hanson Joins Delta's Production Team

July 11, 2012 – Battle Ground, WA – Delta Computer Systems, Inc. announces the addition of Randy Hanson to the Delta Production team. Since joining Delta in early 2012, Randy's efforts have included product testing and repair along with other support duties such as prototyping and machining, while preparing for support duties in software test and development.

Randy's background in industry includes experience in fabrication, maintenance, troubleshooting at a technician level and CNC programming. His interest in electronics, software and programming led him to Delta as he continues to add to his education by taking classes toward a degree in Electrical Engineering.

"We are pleased to have Randy as a member of Delta's production team", stated Delta CEO, Steve Nylund. "In addition to his growing technical skills, Randy provides Delta with good hands on practical experience that can help us to improve our overall company production processes," Nylund added.

The high performance motion control products that Delta designs, manufactures and markets are used worldwide for hydraulic, pneumatic and electric closed-loop control in a wide array of single and multi-axis applications, including testing, food, energy, automotive, entertainment, plastics, materials, aerospace, metals, forest products and others

.About Delta Computer Systems: For more than 29 years, Delta has supplied motion controllers, color sensors, and other utility and industrial products that enable OEMs & integrators to build better machines.
