

FOR IMMEDIATE RELEASE

IT Specialist Aaron Bruckelmyer joins Delta Computer Systems, Inc.

June 6, 2014 –Battle Ground, WA. Aaron Bruckelmyer has recently joined motion control innovator and manufacturer Delta Computer Systems as an IT specialist.

Bruckelmyer has a strong background in software development and business application systems including product development, manufacturing, sales and distribution. During his short time with Delta, he has been working to implement a new blog and CRM system and is assisting in consolidating the server infrastructure. In the long term Aaron is looking forward to becoming more involved with RMC motion controller product development and manufacturing operations at Delta.

Aaron has 15 years' experience in software development with previous employers including Columbia Sportswear and Louisiana Pacific Corporation. He holds an Associate's degree in computer programming from Wisconsin Indianhead Technical College in Superior, Wisconsin. Additionally he is a certified Lean Six Sigma Green Belt.

"Aaron will be responsible for Delta's internal computer networks, email systems and website support as his duties expand to match our growing organizational needs" stated Steve Nylund, CEO of Delta Computer Systems, Inc.

Nylund added, "Aaron's addition will ensure that our internal systems are at the highest levels of effectiveness helping us to continue to promptly deliver the excellent customer support that Delta's customers have long enjoyed."

About Delta Computer Systems

For more than 30 years, Delta has supplied motion controllers, color sensors, and other utility and industrial products that enable OEMs & integrators to build better machines.

The high performance motion control products that Delta designs, manufactures and markets are used worldwide for hydraulic, pneumatic and electric closed-loop control in a wide array of single and multi-axis applications, including testing, food, energy, automotive, entertainment, plastics, materials, aerospace, metals, forest products and others.
