

Delta Exhibited in China at PTC ASIA 2014

November 6, 2014 - Battle Ground, WA - Delta Computer Systems, Inc. exhibited at the Power Transmission and Control PTC ASIA 2014 in Shanghai, China, together with our principal distributor and solution provider in China, Beijing Silusheng Automation Systems Integration Co., Ltd. Expanding on the successful exhibition at PTC AISA 2013, Delta's booth this year featured live demos of synchronized cylinder movements and six degree of freedom action. (6DOF).

Delta's President and Chief Motion Controller Architect Peter E. Nachtwey participated during the show, meeting existing customers and new prospects to answer technical questions and address application design challenges. Nachtwey's presence at the show and his in-depth knowledge and experience in servo-hydraulic motion controls were welcomed and much appreciated by Chinese engineer visitors.

"Together with Beijing Silusheng Automation, we are bringing the benefits of Delta's high performance closed-loop hydraulic motion control to more customers in China," stated Delta CEO, Steve Nylund. "This PTC Asia venue gives OEMs, end users and distributors the opportunity to learn about the latest industrial automation and fluid power technology. Precise motion control for hydraulic, pneumatic and hybrid applications continues to help improve production and quality for industries worldwide," Nylund added.

The high performance motion control products that Delta designs, manufactures and markets are used worldwide for hydraulic, pneumatic and electric closed-loop control in a wide array of single and multi-axis applications, including testing, metals, energy, automotive, entertainment, plastics, materials, aerospace, food, forest products and others.

About Delta Computer Systems: For 30 years, Delta has supplied motion controllers, color sensors, and other industrial products that enable OEMs & integrators to build better machines.
