FOR IMMEDIATE RELEASE

July 28, 2017 Battle Ground, WA. Delta Computer Systems is pleased to announce that David McNichol has joined as a regular full time employee at motion control innovator and manufacturer Delta Computer Systems, Inc.

"David began working as an intern at Delta by helping with RMC200 testing, HMI interface programming and improving our RMC training and demonstration systems." stated Steve Nylund CEO of Delta Computer Systems, Inc.

Nylund added, "His first assignments will allow David to continue growing in experience and contributing to our newest RMC200 controller (up to 32 axes) and our full line of innovative RMC family of products including the RMC75 and RMC150 motion controllers."

David is a Clark County, Washington native and comes to Delta with solid academic credentials gained while at Washington State University, Vancouver where his emphasis was in engineering, physics and mathematics while earning a Bachelor of Science degree in Electrical Engineering.

About Delta Computer Systems

Delta Computer Systems, Inc. designs, manufactures, markets, and supports motion controllers, and specialized products. With a track record of more than 35 years of motion control product development, customer responsiveness, continuous incremental improvement, and support for both legacy and new products, Delta delivers lasting value. [Delta's newest RMC200 motion controllers will be demonstrated next during Fabtech 2017-Chicago](#).
